Verification and Performance Examination Report

Ariel Investments, LLC

We have verified whether Ariel Investments, LLC (the “Firm”) has, for the periods from April 1, 1990 through December 31, 2024, established policies and procedures for complying with the Global Investment Performance Standards (GIPS®) related to composite and pooled fund maintenance and the calculation, presentation, and distribution of performance that are designed in compliance with the GIPS standards, as well as whether these policies and procedures have been implemented on a firm-wide basis. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein. We have also examined the Firm’s Ariel Mid Cap Value Composite for the periods from April 1, 1990 through December 31, 2024.

The Firm’s management is responsible for its claim of compliance with the GIPS standards, the design and implementation of its policies and procedures, and for the accompanying Ariel Mid Cap Value Composite’s GIPS composite report. Our responsibilities are to be independent from the Firm and to express an opinion based on our verification and performance examination. We conducted this verification and performance examination in accordance with the required verification and performance examination procedures of the GIPS standards, which includes testing performed on a sample basis. We also conducted such other procedures as we considered necessary in the circumstances.

In our opinion, for the periods from April 1, 1990 through December 31, 2024, the Firm’s policies and procedures for complying with the GIPS standards related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been, in all material respects:

- Designed in compliance with the GIPS standards, and
- Implemented on a firm-wide basis.

Also, in our opinion, the Firm has, in all material respects:

- Constructed the Ariel Mid Cap Value Composite and calculated the Ariel Mid Cap Value Composite's performance for the periods from April 1, 1990 through December 31, 2024 in compliance with the GIPS standards; and
- Prepared and presented the accompanying Ariel Mid Cap Value Composite's GIPS composite report for the periods from January 1, 2015 through December 31, 2024 in compliance with the GIPS standards.

This report does not relate to or provide assurance on any specific performance report of the Firm other than the Firm's accompanying Ariel Mid Cap Value Composite's GIPS composite report, or on the operating effectiveness of the Firm's controls or policies and procedures for complying with the GIPS standards.

1. Ariel Investments claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Ariel Investments has been independently verified for the period from April 1, 1990, through December 31, 2024. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The Ariel Mid Cap Value Composite has had a performance examination for the periods April 1, 1990, through December 31, 2024. The verification and performance examination reports are available upon request. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein. **Past performance is no guarantee of future results.**

2. Ariel Investments, LLC (Ariel) is a Delaware limited liability company registered as an investment adviser with the U.S. Securities and Exchange Commission. Headquartered in Chicago, Illinois, with offices in New York, and San Francisco, Ariel offers investment strategies that seek long-term capital appreciation by investing primarily in equity securities. Ariel utilizes a bottom-up, fundamental analysis to select quality company stocks. Taking a long-term view and applying independent thinking to our investment decisions, Ariel spans the market cap spectrum from small to large and covers the globe with U.S., international, global, and emerging markets offerings.

3. The Ariel Mid Cap Value Composite includes all discretionary, fee-paying, commission paying, mid cap value portfolios that are invested in the mid cap value strategy. This strategy seeks long-term capital appreciation by investing in mid cap undervalued companies that show strong potential for growth. The Ariel Mid Cap Value Composite differs from its benchmark, the Russell Midcap® Value Index, with fewer holdings concentrated in fewer sectors. The portfolio invests primarily in equity securities of U.S. companies that, at the time of initial purchase for the strategy, have market capitalizations within the range of companies in the Russell Midcap® Index. As of December 31, 2024, the market capitalizations of companies in the Russell Midcap® Index ranged from \$159 million to \$171.67 billion. Over time, the market capitalizations for the strategy's portfolio companies will change. This means that the strategy could continue to invest in (hold and purchase) a company if its capitalization were to move outside the range. To maintain the strategy's mid cap characteristic, Ariel has adopted procedures to eliminate companies, over time, that Ariel views as substantially outside the strategy's small/mid cap range. Effective January 1, 2020, the Ariel Mid Cap Value Composite was redefined to no longer exclude pooled funds in accordance with GIPS® 2020. A list of composite and limited distribution pooled fund descriptions, a list of broad distribution pooled funds and policies for valuing investments, calculating performance, and preparing GIPS® Reports are available upon request. The Composite was created in December 2005. The Composite's inception date is March 31, 1990.

4. The 3-year annualized ex-post standard deviation measures the variability of the Composite's gross returns and the benchmark over the preceding 36-month period.

5. Performance results are reported in U.S. dollars, net of transaction costs and reflect the reinvestment of dividends and other earnings. Net of Fees returns are calculated by deducting the actual monthly advisory fee (on an asset-weighted basis) applicable to all accounts in the composite, using the fee rates in place as of the most recent calendar quarter-end. Actual fees may vary depending on, among other things, the applicable fee schedule and portfolio size.

6. The standard fee schedule currently in effect is: 1.00% on the first \$10 million; 0.75% on the next \$10 million; and 0.50% on the balance over \$20 million.

7. The dispersion of annual returns is measured by the standard deviation of asset-weighted gross portfolio returns represented within the composite for the full year. For those periods with one or fewer portfolios included for the entire year, dispersion is not presented.

8. The Russell Midcap® Value Index measures the performance of the mid-cap value segment of the U.S. equity universe. It includes those Russell Midcap Index companies with lower price-to-book ratios, lower forecasted growth values and lower sales per share historical growth. Its inception date is February 1, 1995. Russell® is a trademark of London Stock Exchange Group, which is the source and owner of the Russell Indexes' trademarks, service marks and copyrights. Neither Russell nor its licensors accept any liability for any errors or omissions in the Russell Indexes or underlying data and no party may rely on any Russell Indexes and/or underlying data contained in this communication. No further distribution of Russell data is permitted without Russell's express written consent. Russell does not promote, sponsor or endorse the content of this communication.

9. The Ariel Composite Net of Fees returns for the period from January 1, 2014, onwards were restated to reflect a change in the calculation methodology. Such returns now reflect the actual monthly advisory fee (on an asset-weighted basis) applicable to all accounts in the composite instead of the maximum annual advisory fee applicable to any account in the composite.
