\*Assets under management include \$1.48 billion for Ariel Alternatives, a subsidiary of Ariel Investments, which reflects aggregate commitments and excludes fund specific leverage. \*\*Please see the Fund's prospectus for additional minimums, including a \$50 per month Automatic Investment Program option. \*\*\*As of 02/01/25. 'Past performance does not guarantee future results and includes the reinvestment of dividends and capital gains. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. To access performance data as of the most recent month-end, visit arielinvestments.com. Any extraordinary short-term performance may not be sustainable and is not representative of the performance over longer periods. Annual Average Total Return does not reflect a maximum 4.75% sales load charged prior to 7/15/94. 'Performance for the Invitional Class without any adjustments. During this period, the performance of the Institutional Class would have been substantially similar, yet higher than that of the Investor Class. Both classes are invested in the same securities, but bear different expenses-primarily resulting from variations in distribution and service fees. "The Russell 2500<sup>™</sup> Value Index measures the performance of the small to mid-cap value segment of the U.S. equity universe. It includes those Russell 2500 companies with relatively lower price-to-book ratios, lower forecasted growth values and lower sales per share historical growth. Inception of this benchmark is July 1, 1995. Ariel Fund Benchmark Update Effective February 1, 2025: The Russell 2000<sup>®</sup> Value Index measures the performance of the small-cap value segment of the U.S. equity universe, to include strain of the Secondary benchmark for Ariel Fund because it more closely aligns with certain market sectors in which Ariel Fund mexests. The Russell 2000<sup>®</sup> Value Index meas

Source: FactSet. 1Holdings are categorized according to the Russell Industry Classification Benchmark (ICB). Holdings not classified by ICB are categorized according to FactSet. 2The Fund's Top 10 Positions are ranked by issuer Ending Weight (% of net assets). Contributors and Detractors are ranked by issuer Contribution to Return (%). Contribution to Return (%) is the Ending Weight (%) times the Total Return (%) linked daily for the period. The holdings shown do not represent all of the securities purchased, sold or recommended for investors. Quantitative Measures (Source, FactSet): Ending Weight is the value of the holding relative to the Fund's total assets as of the report date. Average Weight is the average value of the holding relative to the Fund's total assets over the period. Forward Price/Earnings Ratio is a valuation measure that represents the price at quarter end divided by the mean earnings per share (EPS) consensus estimate for the next twelve months as of the run date. The holdings are summarized at the portfolio level using weighted harmonic average. Long Term Estimated Earnings Growth, an income statement measure, is the percent growth rate of the median earnings per share (EPS) consensus estimate for the unreported current year, current year+1, current year+2, and current year+3 as of the run date. Holdings are summarized at the portfolio level using weighted average. Interest Coverage Ratio is a liquidity measure that represents the ratio of earnings before interest and taxes (EBIT) relative to the interest expense for the period. Holdings categorized as Financials by the Russell Industry Classification Benchmark (ICB) are excluded from the portfolio summary statistic. The holdings are summarized at the portfolio level using median. Return on Equity is a profitability measure that represents the consensus estimate for the next fiscal year net income divided by total equity over the period. Holdings are summarized at the portfolio level using weighted average. Active Share measures the degree the portfolio deviates from the benchmark. Discount to Private Market Value is the percentage discount the portfolio trades at relative to Ariel Investments' internal estimate of the portfolio's private market value (PMV). There is no guarantee that companies we invest in will achieve our PMV or projected future earnings. Source: Northern Trust: **Turnover**, a measure of portfolio change, is the lesser of purchases or sales divided by the average market value of Fund assets over the trailing 13-month period. **Investing in small cap and mid-cap** stocks is more risky and more volatile than investing in large cap stocks. The intrinsic value of the stocks in which the Fund invests may never be recognized by the broader market. Ariel Fund is often concentrated in fewer sectors than its benchmarks, and its performance may suffer if these sectors underperform the overall stock market. Investing in equity stocks is risky and subject to the volatility of the markets. Investors should carefully consider the investment objectives, risks, and charges and expenses before investing. For a current summary prospectus or full prospectus, which contains - detailed information or details about the funds offered by Ariel Investment Trust, call 800-292-7435 or visit arielinvestments, com. Please read the summary prospectus or full prospectus carefully before investing. Distributed by Ariel Distributors, LLC, a wholly-owned subsidiary of Ariel Investments, LLC. Ariel Distributors, LLC is a member of the Securities Investor Protection Corporation.
