Verification and Performance Examination Report

Ariel Investments, LLC

We have verified whether Ariel Investments, LLC (the “Firm”) has, for the periods from April 1, 1990 through December 31, 2025, established policies and procedures for complying with the Global Investment Performance Standards (GIPS®) related to composite and pooled fund maintenance and the calculation, presentation, and distribution of performance that are designed in compliance with the GIPS standards, as well as whether these policies and procedures have been implemented on a firm-wide basis. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein. We have also examined the Firm’s Ariel Emerging Markets Value Composite for the periods from May 1, 2023 through December 31, 2025.

The Firm’s management is responsible for its claim of compliance with the GIPS standards, the design and implementation of its policies and procedures, and for the accompanying Ariel Emerging Markets Value Composite’s GIPS composite report. Our responsibilities are to be independent from the Firm and to express an opinion based on our verification and performance examination. We conducted this verification and performance examination in accordance with the required verification and performance examination procedures of the GIPS standards, which includes testing performed on a sample basis. We also conducted such other procedures as we considered necessary in the circumstances.

In our opinion, for the periods from April 1, 1990 through December 31, 2025, the Firm’s policies and procedures for complying with the GIPS standards related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been, in all material respects:

- Designed in compliance with the GIPS standards, and
- Implemented on a firm-wide basis.

Also, in our opinion, the Firm has, in all material respects:

- Constructed the Ariel Emerging Markets Value Composite and calculated the Ariel Emerging Markets Value Composite's performance for the periods from May 1, 2023 through December 31, 2025 in compliance with the GIPS standards; and
- Prepared and presented the accompanying Ariel Emerging Markets Value Composite's GIPS composite report for the periods from May 1, 2023 through December 31, 2025 in compliance with the GIPS standards.

This report does not relate to or provide assurance on any specific performance report of the Firm other than the Firm's accompanying Ariel Emerging Markets Value Composite's GIPS composite report, or on the operating effectiveness of the Firm's controls or policies and procedures for complying with the GIPS standards.

Year End	Gross Annual Return	Net Annual Return	MSCI EM Net Index	3-Year Annualized Standard Deviation		Composite Dispersion	Number of Portfolios	Composite Assets (\$ Millions)	Total Firm Assets (\$ Millions)
				Composite	Benchmark				
2023	10.81%	10.12%	6.86%	n/a	n/a	n/a	1	11.0	13,392.8
2024	9.72%	8.66%	7.50%	n/a	n/a	n/a	1	12.0	12,369.7
2025	35.08%	34.07%	33.57%	n/a	n/a	0.25	2	90.6	12,778.1

1. Ariel Investments claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Ariel Investments has been independently verified for the period from April 1, 1990, through December 31, 2025. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The Ariel Emerging Markets Value Composite has been examined for the periods May 1, 2023, through December 31, 2025. The verification and performance examination reports are available upon request. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein. **Past performance is no guarantee of future results.**

2. Ariel Investments, LLC (Ariel) is a Delaware limited liability company registered as an investment adviser with the U.S. Securities and Exchange Commission. Headquartered in Chicago, Illinois, with offices in New York, and San Francisco, Ariel offers investment strategies that seek long-term capital appreciation by investing primarily in equity securities. Ariel utilizes a bottom-up, fundamental analysis to select quality company stocks. Taking a long-term view and applying independent thinking to our investment decisions, Ariel spans the market cap spectrum from small to large and covers the globe with U.S., international, global, and emerging markets offerings.

3. The Ariel Emerging Markets Value Composite includes all discretionary, fee-paying, commission-paying, portfolios that are invested in the emerging markets value strategy. The primary objective of the Strategy is to seek to deliver long-term capital appreciation. The secondary objective is to attain higher relative returns compared to its primary benchmark over a full market cycle. The strategy invests primarily in equity securities of non-U.S. companies in emerging markets. The strategy will invest in non-U.S. securities by purchasing equity securities directly or through instruments that provide exposure to non-U.S. companies. The strategy is permitted to invest in companies of any size. The Ariel Emerging Markets Value Composite differs from its benchmarks, the MSCI EM (Emerging Markets) Index and MSCI EM (Emerging Markets) Value Index because the Composite has fewer holdings than the benchmarks.

The strategy uses various techniques to hedge currency exposure or to invest significant cash inflows in the market (i.e., reducing "cash drag"), including derivatives, exchange-traded funds ("ETFs"), and other hedges. The strategy will buy and sell currency on a spot basis and enter into foreign currency forward contracts. Ariel uses these techniques primarily in an attempt to ensure that stock selection is the primary driver of relative returns. Indexes are unmanaged. An investor cannot invest directly in an index. A list of composite and limited distribution pooled fund descriptions, a list of broad distribution pooled funds, and policies for valuing investments, calculating performance, and preparing GIPS® Reports are available upon request. The composite was created in May 2023. The composite's inception date is April 30, 2023.

4. The 3-year annualized ex-post standard deviation measures the variability of the Composite's gross returns and the benchmark over the preceding 36-month period.

5. Composite gross and net-of-fees returns are reported in U.S. dollars, net of transaction costs and reflect the reinvestment of dividends and other earnings. Gross returns do not reflect the deduction of investment management fees. Net-of-fees returns are calculated by deducting the actual monthly investment management fee (on an asset-weighted basis) accrued for the accounts in the composite, using the fee rates in place as of the most recent calendar quarter-end. For Ariel Emerging Markets Value Fund LLC, both gross and net-of-fees returns reflect the deduction of transaction costs and fund-level administrative expenses, while net-of-fees returns also reflect the deduction of investment management fees. Actual fees may vary depending on, among other things, the applicable fee schedule and portfolio size.

The investment management fee rate applicable to an individual account may be higher than the effective fee rate reflected in the composite's net-of-fees returns. This is because composite net-of-fees returns are asset-weighted and reflect the actual investment management fees charged to each account included in the composite. As a result, the composite net-of-fees returns shown may be higher than the net-of-fees returns realized by certain individual accounts included in the composite, and may also be higher than the returns a prospective client or investor would have realized under their applicable fee schedule.

6. The standard fee schedule currently in effect is: 0.95% on the first \$25 million; 0.90% on the next \$25 million; and 0.75% on the balance over \$50 million.

7. The dispersion of annual returns is measured by the standard deviation of asset-weighted gross portfolio returns represented within the composite for the full year. For those periods with one or fewer portfolios included for the entire year, dispersion is not presented.

8. The MSCI Emerging Markets Index captures large and mid cap representation across 24 Emerging Markets (EM) countries. Its inception date is January 1, 2001. All MSCI Index net returns reflect the reinvestment of income and other earnings, including the dividends net of the maximum withholding tax applicable to non-resident institutional investors that do not benefit from double taxation treaties. MSCI uses the maximum tax rate applicable to institutional investors, as determined by the companies' country of incorporation. MSCI makes no express or implied warranties or representations and shall have no liability whatsoever with respect to any MSCI data contained herein. The MSCI data may not be further redistributed or used to create indices or financial products. This report is not approved or produced by MSCI.
